Choosing Wisely® Member Expert Workgroup

The American Physical Therapy Association’s (APTA) member expert workgroup is composed of individuals with knowledge and experience with a variety of patient populations in a variety of practice settings. Each member has experience/expertise in clinical practice and research in a specific content area. Workgroup members: reviewed submissions based upon criteria established by Choosing Wisely®, reviewed and prioritized submissions using a modified Delphi process, reviewed relevant literature provided by APTA’s research librarian, and identified 9 items to include in an all member survey to select the final 5 items put before APTA’s Board of Directors for approval.

The following physical therapists served on APTA’s member expert workgroup.

**Anthony Delitto, PT, PhD, FAPTA**
